What to Expect

When Working With Your Personal RTA Closet Design Expert

When working with an RTA Closet Design Expert, you can rest easy knowing that we've got the details covered. Free of charge, working with a personal design expert will take you from start to finish, making your closet goals a reality! When you work with a Closet Expert you can expect:

- A knowledgeable industry expert who will curate a design based on your needs, and budget.
- Accurate design specifications based on your measurements.
- A custom price quote.
- A 3-D digital rendering of your closet design, brought to life for you before you purchase.
- A custom cart built for you and added directly to your cart.
- All questions answered in a timely manner.

QUALITY + DURABILITY

The material used to make the panels and shelves is furniture grade composite board which gives it the strength needed for quality construction.

1

This decorative laminate layer is available in a variety of colors.

2

High density composite panels are CARB 2 compliant and meet LEED green building standards. Our substrates are made from wood sourced from certified, recycled, recovered and/or controlled sources.

3

Our panels are custom-cut using 3/4" thick TFL, which consists of laminate, fused to a high-density composite panel (heat and pressure fuses the decorative layers to the core, actually becoming part of the panel itself).
